

Abdulwahed Mansour

IT Support / Solutions Engineer / Technical Account Manager

Stockholm, Sweden · +46 76 930 8145 · abdulwahed.mansour@gmail.com
github.com/abdulwahed-sweden · linkedin.com/in/abdulwahed-sweden · EU work eligibility · Stockholm

Covers: IT Technician · IT Support Technician · Technical Support Specialist · IT Consultant · Solutions Engineer · Customer Support Engineer · Technical Account Manager · IT / Project Coordinator

SUMMARY

Hands-on technologist with 15+ years across software, systems, and security — now bringing that depth to customer-facing technical roles. I diagnose problems across **Windows, Linux, and macOS**, networks, databases, and web applications, and I explain solutions clearly to both engineers and non-technical users. **Multilingual (Arabic native, English professional, Swedish working, French basic)**, which is a real asset supporting diverse users and international customers. Calm under pressure, methodical in troubleshooting, and strong at turning a messy issue into a documented, repeatable fix.

TECHNICAL SKILLS

AREA	TECHNOLOGIES
Operating systems	Windows, Linux, macOS — administration & troubleshooting
Networking	TCP/IP, DNS, HTTP/S, firewalls (UFW), SSH, VPN/proxy basics
Cloud & SaaS	AWS, GCP, Azure (core services), Docker, web hosting (Nginx)
Databases	PostgreSQL, MySQL, SQLite — queries, backups, basic admin
Web & apps	Django/FastAPI apps, REST APIs, deployment, monitoring/logs
Scripting	Python, Bash — automation of repetitive support tasks
Security	account hardening, least-privilege, secure configuration, incident basics
Tools & comms	ticketing/triage mindset, clear documentation, knowledge-base writing

WHY I'M A STRONG SUPPORT / SOLUTIONS HIRE

- Deep root-cause skill:** I build the systems people support, so I find causes fast instead of escalating.
- Customer translation:** I explain technical issues in plain language — in multiple languages.
- Automation bias:** I script away recurring tickets and document the fix so it doesn't recur.
- Ownership:** 15 years delivering projects end-to-end means I follow issues through to resolution.

EXPERIENCE

Independent Software & Systems Engineer — 2010 – Present · Stockholm

- Delivered and supported 35+ systems end-to-end: deployment, monitoring, troubleshooting, user guidance, and documentation across cloud and multi-OS environments.
- Built automation (Python/Bash) and CI/CD to reduce manual, repetitive operational work.
- Hardened and maintained production servers (SSH, firewall, access control, backups).

Security Researcher (part-time) — 2022 – Present · Remote

- Diagnosed complex system failures and edge cases; documented reproducible findings clearly for technical and non-technical stakeholders.

SELECTED WORK THAT MAPS TO SUPPORT / SOLUTIONS

- **Production deployments & ops** (JobFlow, HuntLoan): live systems with monitoring, alerting, and incident handling.
- **Multi-service troubleshooting** (RentQ): PostgreSQL, Redis, Elasticsearch, workers — diagnosing failures across a stack.
- **Documentation:** authored extensive technical docs, runbooks, and audit reports.

EDUCATION

2010 Linköping University (SE) — SW Engineer equivalency · 2004 Paris 6 (FR) · 1999 Al-Azhar — technical engineering
